 Case No. 39576) **DECLARATION OF FREDRIC W.**
) **PRICE IN SUPPORT OF UNITED**
) **STATES' MOTION FOR PARTIAL**
) **SUMMARY JUDGMENT**
)

I, Fredric W. Price, in accordance with the requirements of the Idaho Rules of Civil Procedure 2.7 and the provisions of Idaho Code 9-1406, declare as follows:

1. My name is Fredric W. Price. I am an employee of the United States, Department of the Interior, Bureau of Land Management ("BLM"). The following statements are based upon my personal knowledge. My present position is that of Water Rights Specialist for the BLM Idaho State Office. My current responsibilities include being the program lead for water issues in Idaho and a portion of Nevada for Idaho BLM and managing BLM's participation in general stream adjudications in Idaho and part of Nevada, including the Snake River Basin Adjudication ("SRBA") and adjudications in other river basins. In my position as a Water Rights Specialist, I provide guidance and technical support to BLM's Idaho State Director, District Managers, Field Office Managers, and technical specialists in BLM field offices, particularly those specialists

working in water rights, range, and lands programs. I develop agency policy on water-related issues and in other programs affected by water issues, such as the range management and lands programs. I also review, interpret and analyze water right applications /claims. Based on this review and analysis, I prepare opinions, recommendations, protests, petitions, objections, and/or responses for administrative and adjudication matters.

2. I have been employed by the BLM since 1982 in the following positions:

a. From 1982 to August 1993, eleven and a half years in various positions within the Rangeland Firefighting Program at the BLM, Shoshone Field Office, including twelve (12) months working on that office's water rights team preparing 5,500 BLM water right claims for filing in the SRBA; and

b. Water Rights Specialist at the BLM State Office in Boise, Idaho from August 1993 to the present.

3. My work experience with BLM includes the following:

Through my eleven and a half years in BLM's fire program, I gained the ability to understand and interpret maps, legal land descriptions, and Range Improvement Project Files. In the various fire positions I held, I routinely traveled to remote locations with just a map, to map the position and extent of fires for which I was responsible, to locate, construct and maintain range improvements (including but not limited to spring developments, pipelines, and fences), to prepare as-built drawings, and to supplement range improvement project files. I taught courses to new employees in interpreting maps and BLM Master Title Plats, as well as, how to use a compass. My work required the ability to interpret maps and legal land descriptions in order to assist with the preparation, mapping, and review of 5,500 water right claims by the Shoshone District in the SRBA. I have reviewed hundreds of Range Improvement Project Files for the

purpose of locating the project, determining when it was constructed, whether it was completed, whether it is still functional, to identify potential SRBA water claims, and to capture certain types of projects and claim locations into a geographic information system (i.e., computer mapping software applications commonly called “GIS”). During my time in that office, I inputted base data into BLM’s GIS for Public Land Survey System (“PLSS”) (i.e., legal land descriptions), land ownership, soil types, and appurtenant water rights. PLSS, ownership, and water rights data are mapped in data layers; therefore it was necessary for me to interpret the agency’s records to prepare products for establishing those data layers.

As a Water Rights Specialist at the BLM State Office, since 1993, I interpret national program policy, federal regulations, and state/federal laws to prepare and recommend policy, procedures, and statewide guidance for the BLM’s water rights program. My work experience also includes developing policy for Idaho BLM across several programs to deal with water issues, such as those affecting the range management and lands programs. I routinely consult with and assist other state BLM offices with their water rights’ policy and issues. In addition, I provide critical input into BLM’s national policy involving water rights and water issues.

In my position, I provide guidance and direction to employees in Idaho BLM offices on all matters relating to water issues, water rights, preparation of Applications for Water Permit, Applications for Transfer, Notices of Claim, Protests, Petitions, Objections, and Responses. I developed the investigative criteria, methods, and forms to be used by the Idaho BLM field offices to investigate water sources, which provide the basis for preparing Notices of Claim in adjudications and submitting Statements of Completion (aka, Proof of Beneficial Use) for licensing.

I have reviewed thousands of Idaho BLM claim files and field investigations conducted by BLM. I have also performed investigations of water sources and water rights in the field.

I have reviewed hundreds of Range Improvement Project Files for the purpose of locating the project, determine when it was constructed, whether it was completed, if it is still functional, who contributed to the construction and in what amounts, and determine whether water is present, used, and in what amounts.

Since 1995 when the State Director delegated authority to me as part of my official duties, I have been authorized to determine Idaho BLM's official position on water matters, to appear in court or in state agency administrative proceedings on behalf of Idaho BLM, to determine settlement parameters for Idaho BLM, to engage in and negotiate settlements on behalf of Idaho BLM, and to represent the agency in all aspects of any water right matter or issue. As part of the delegation of authority, I am responsible for making final BLM recommendations to the Solicitor's Office and the Department of Justice and providing technical support on matters involving water issues and general stream adjudications affecting lands or resources managed by Idaho BLM.

In my position, as part of BLM's due diligence in evaluating claims and objections within a general stream adjudication or in evaluating applications and protests before the Idaho Department of Water Resources ("IDWR") in administrative proceedings, I have reviewed tens of thousands of legal land descriptions focusing on Points of Diversion ("POD"), Places of Use ("POU"), and the route of the conveyance means between the POD and POU ("route") that are contained in Applications for Water Permit, Applications for Transfer, Applications for Temporary Permit, Approved Permits, Approved Transfers, Notices of Instream Diversion, Notices of Claim, IDWR Director's Report Recommendations, Standard Forms 5 (i.e., settled

elements of the water right), Special Master's Reports and Recommendation, and Partial Decrees. My review ascertained land ownership of the POD, POU, and route and whether those elements impacted federal lands. This work requires me to interpret legal land descriptions against BLM's official records, including Master Title Plats ("MTP"), Historical Indexes ("HI"), and Control Document Indexes ("CDI"). I have used these resources and other BLM records to determine the ownership history for thousands of parcels, as described by legal land descriptions. For decades, it has also been part of my duties to train staff employees in how to read and interpret legal land descriptions, MTPs and HIs.

I have reviewed thousands of patents and deeds to determine who owned what as provided by the legal land descriptions or metes and bounds descriptions contained in the instrument. Based on my expertise, I have offered numerous changes and corrections to MTPs, HIs and CDIs, and have filed hundreds of objections, protests, or petitions to water right applications, transfers, notices, claims, or Director's Report recommendations due to erroneous legal land descriptions or the unauthorized use of federal lands.

Through diligent research and analysis in interpreting lands records, I have determined changes needed to legal land descriptions for thousands of water right descriptions for use within settlement documents, such as the Standard Form 5 ("SF-5") in adjudications, or Settlement Agreements in administrative proceedings. These settlement documents resolve objections and protests in adjudication and administrative proceedings. For thousands of adjudication subcases, I have made determinations whether multiple claims exist for the same water source, what the nature of their relationship is to each other, and how they are distinguished from other water sources and claims.

I have personally investigated the realty records of various counties across Idaho to determine the chain of title or ownership history for given property descriptions in an adjudication or as part of a water right permit, transfer, or license proceeding. For hundreds of parcels of land, I have used data and internet resources that I determined through research to be reliable and determinative of the current ownership and boundaries of these owned parcels.

Besides my work experience in working with Master Title Plats, Historical Indexes, and Control Document Indexes, I have extensive knowledge of, and experience with other official business records of BLM, including but not limited to, Idaho BLM water right claim files, Idaho BLM water right field investigations, Tract Books, Serialized Case Recordation Files, Cadastral Survey Plats, Mining Claim Files, Homestead Entry Files, Grazing Allotment Files, Grazing Operator Files, and Range Improvement Project Files. I also have extensive knowledge of, and experience with, the official business records of the IDWR, including Water Right Backfiles and Adjudication Backfiles.

Since the early 1980s, as shown from my work experience, I have developed extensive knowledge in interpreting maps, aerial photos and legal land descriptions, as well as, using various computer mapping software applications (i.e., GIS) to create thousands of maps from many different data sets.

I have filed or assisted in the filing of approximately 10,000 BLM objections to third party water right claims and resolved or assisted in the resolution of approximately 96,000 objections filed against water right claims filed on behalf of the BLM. BLM is a regulatory agency managing authorized uses of Federal land who also prosecutes unauthorized uses of and prohibited acts upon Federal land. In order to formulate and articulate a basis for filing a protest or objection, I must know and understand the relevant laws, regulations, rules, policy, and

caselaw as it applies to how land and water uses on Federal land shall be regulated. I have reviewed hundreds of Grazing Operator files to determine grazing preference history back to the original Taylor Grazing Act applicant. I have reviewed hundreds of Homestead Entry files to determine what evidence of water use may exist in those files. Since the early 1990s, I review homestead entry applications for sufficiency regarding water uses and water rights and make recommendations for approval or rejection.

I have testified as a witness or by affidavit numerous times before IDWR hearings officers, as well as, in state and federal courts regarding water rights issues and federal ownership of land. In these proceedings I have prepared affidavits, declarations, reports, and maps as Exhibits for use by BLM, U.S. Attorney's Office, Solicitor's Office, and the Department of Justice.

4. On November 30, 2012, Keith and Karen Hood filed a Grazing Preference Application with BLM to graze in the Horse Flat Allotment (#ID00095). Attached as **Exhibit 1** is a true and correct copy of the Grazing Preference Application that I obtained from the Hood's Grazing Operator File located in the BLM Boise District Office.

Part of the application form responses involves identifying base property to which the grazing preference shall attach. The Hoods identified their base property as being consistent with the land described in a Personal Representative's Deed between the Estate of Melvin A. and Inez G. Dotson and the Hoods (which was attached to the application). This deed was recorded in Washington County on August 31, 2012 and designated as Instrument #220875. The legal land descriptions in the deed were listed as:

Township 15 North, Range 3 West of the Boise Meridian:

Section 21: SW1/4SW1/4;

Section 28: N1/2, N1/2S1/2;

Section 29: E1/2NE1/4 and NE1/4SE1/4.

This description can be expanded into a complete list of individual forty (40) acre tracts (aka, quarter-quarters (“QQ”)), such that, the Hood’s base property is 640 acres in T15N, R03W, comprising the SWSW of Section 21; the NENE, NWNE, SWNE, SENE, NENW, NWNW, SWNW, SENW, NESW, NWSW, NESE, and NWSE of Section 28, and the NENE, SENE, and NESE of Section 29.

5. The Hoods are currently one of five authorized grazing operators (aka, permittees) on the Horse Flat Allotment (#ID00095) within the BLM Four Rivers Field Office: Ford Ranch Inc (#1101092); Noahs Angus Ranch LLC (#1101362); Ford Ranch Inc (#1101378); Edwards Family Ranch LLC (#1101756); and Keith and Karen Hood (#1104408).

Attached as **Exhibit 2** is a true and correct copy of an Allotment Master Report for the Horse Flat Allotment (#ID00095) that I obtained from BLM’s Rangeland Administration System (“RAS”) which identifies the current permittees. RAS is BLM’s official electronic database that includes information on allotments, authorizations, grazing bill history, and grazing operators.

6. The Horse Flat Allotment (#ID00095) includes lands owned by the United States and managed by the Bureau of Land Management (“BLM”), and the Bureau of Reclamation (“BOR”), as well as, the State of Idaho, and private (non-federal) persons/entities. Hood’s claims only describe legal land descriptions on BLM (23 claims) and BOR (4 claims) lands within the Horse Flat Allotment.

Attached as **Exhibit 3** is a true and correct copy of a map of the Horse Flat Allotment prepared by me using standard BLM and IDWR Geographic Information Systems (“GIS”) datasets. The map shows the exterior boundaries of the Horse Flat Allotment. The map also

depicts the ownership of land, where: United States property is shaded in yellow for BLM land, lighter yellow for BOR land, and green for Forest Service land; State of Idaho land is shaded in blue; and privately owned land is shaded in white. Also depicted on the map are the locations of the Hood's instream stockwater claims within the Horse Flat Allotment.

7. After review of BLM grazing records and IDWR records, the Hoods are currently a grazing permittee on the Horse Flat Allotment, and their water claims describe water sources and places of use located on federal property managed by the BLM and BOR.

8. With regard to federal ownership of the relevant land, Spain, Great Britain, Russia, and the United States all claimed what was once known as the Oregon Territory. The land that comprises the State of Idaho was part of the Oregon Territory. In 1819, under the terms of the Transcontinental Treaty, Spain ceded its claims to the Oregon Territory to the United States. Shortly thereafter the United States contested a unilateral Russian move to grant its citizens a fishing, whaling, and commercial monopoly from the Bering Straits to the 51st parallel. In 1823 President Monroe promulgated his doctrine, which put Russia on notice that the United States did not accept Russian attempts at monopoly. On June 15, 1846, all lands comprising the State of Idaho were ceded to the United States by the United Kingdom of Great Britain and Ireland in a treaty commonly known as the "Oregon Compromise." See Treaty with Great Britain, June 15, 1846, U.S.-U.K., 9 Stat. 869. Based upon the Oregon Compromise in 1846, the United States gained ownership of the Oregon Territory in fee simple absolute, including the lands within the Horse Flat Allotment and Hood's base property.

9. Based on my review of BLM records, as of Hood's claimed priority date of December 28, 1896, the United States owned all the land comprising the present-day allotment and Hood base property, and there were no pending applications for homestead entry on those lands.

10. Based on my review of BLM records, the lands comprising the Hood base property left the United States' ownership through a series of six different patents issued by the United States between 1908 and 1920 as listed below. Attached as **Exhibit 4** are true and correct copies of patents that I obtained from BLM's official records.

Patent 2762 issued to David G. Edwards on May 26, 1908;

Patent 16246 issued to Nels C. Nielson on September 24, 1908;

Patent 222034 issued to Charles R. Edwards on August 24, 1911;

Patent 462899 issued to Leroy T. Braden on March 15, 1915;

Patent 607050 issued to Anna Edwards on November 9, 1917; and

Patent 759345 issued to Charles R. Edwards, as assignee of Franklin B. Hardy, on June 15, 1920.

11. Based upon my review of Homestead Entry files, neither David G. nor Charles R. Edwards lived on any portion of the base property until on or about October 15, 1900. See BLM_043, Affidavit Required of Claimant (Nov. 22, 1906) from the David G. Edwards homestead entry file no. 4486 (Patent 2762).

In 1905, Charles R. Edwards stated that he did not establish his residence on his homestead entry until on or about December 5, 1903. See BLM_029, Affidavit of Charles R. Edwards (Nov. 7, 1905) from the Charles R. Edwards homestead entry file no. 6928 (Patent 222034).

In 1906, U.S. Commissioner R. E. Wilson wrote a memo (Nov. 23, 1906) stating that David G. Edwards "practically lived" with Charles R. Edwards until one year ago. See BLM_046. This document was obtained from the David G. Edwards homestead entry file no. 4486 (Patent 2762).

Attached as **Exhibit 5** are true and correct copies of select documents described above from Homestead Entry files that I acquired from the National Archives and Records Administration (“NARA”).

12. Based on my review of Hood abstract of title documents obtained from Hood, the private fee-owned property offered as base property by Charles R. Edwards in his 1935 grazing permit application was acquired over time by Charles R. Edwards, as follows:

Anna Edwards parcel (Patent 60750) acquired on or about December 14, 1918;

Leroy T. Braden parcel (Patent 462899) acquired on or about April 14, 1919;

David G. Edwards parcel (Patent 2762) acquired on or about September 26, 1928;

Nels C. Nielson parcel (Patent 16246) acquired on or about December 14, 1934.

13. Based on my review of Hood abstract of title documents obtained from Hood, the ownership of the 1935 base property was not unified by Charles R. Edwards until on or about December 14, 1934 with the acquisition of the Nels C. Nielson parcel (Patent 12646).

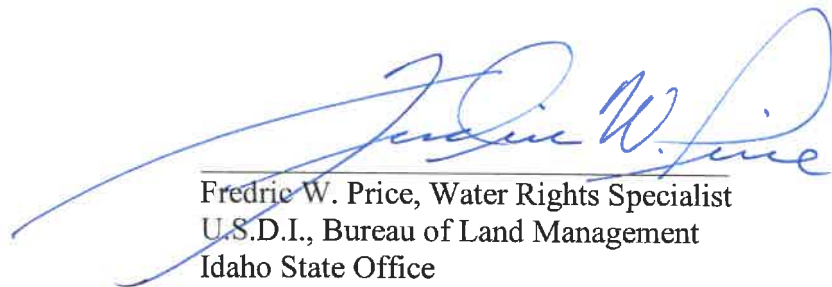

14. Charles R. Edwards first applied for a grazing permit under the Taylor Grazing Act (“TGA”) received by the Grazing Service on July 29, 1935. Attached as **Exhibit 6** is a true and correct copy of the 1935 Application for Grazing Permit filed by Charles R. Edwards that I obtained from BLM’s response to Hood FOIA Request No. FOIA ID-2021-23 (amended).

15. On October 5, 1935, the Grazing Service issued a License to Charles R. Edwards for the 1936 grazing season beginning on April 15, 1936. Attached as **Exhibit 7** is a true and correct copy of the License for the 1936 season that I obtained from BLM’s response to Hood FOIA Request No. FOIA ID-2021-23 (amended).

16. BLM received production of documents in discovery that appear to be grazing documents associated with Forest Service grazing allotments. We have not authenticated these documents but they are attached hereto as **Exhibit 8**.

Pursuant to Idaho Rules of Civil Procedure 2.7 and the provisions of Idaho Code 9-1406, I declare under penalty of perjury pursuant to the law of the State of Idaho that the foregoing is true and correct to the best of my knowledge, information, and belief.

NOTICE: Payment to BLM for transfer processing service charge (see 43 CFR 4130.8-3) must accompany this application. You are encouraged to contact the BLM office that administers the subject grazing preference before you acquire base property and/or apply for grazing preference. All required forms that are needed to apply for grazing preference, to transfer grazing preference, and for a BLM grazing permit or lease are available at your local BLM office. **FORM INSTRUCTIONS:** (1) To apply for preference already attached to base property that you (transferee) recently purchased, leased or otherwise acquired legal control, and the corresponding BLM grazing permit/lease, complete page 1 of this form, BLM Form 4130-1 (Grazing Schedule - Grazing Application), and BLM Form 4130-1b (Grazing Application - Supplemental Information), and submit these forms to BLM with all documents that BLM requires to support or verify the information stated on the application forms. (2) To apply to transfer preference from base property to other property (regardless of whether the other property already is base property for a BLM grazing preference) and for a corresponding permit or lease, the transferee completes the requirements described in (1), above, and the owner or controller of the base property from which the preference is to be transferred (transferor) completes page 2 of this form. Applicants must obtain all other needed signatures as applicable (e.g. lien-holder consent) to complete the application. Upon receipt of an application for preference or an application to transfer preference, BLM will provide the parties to the transfer with an *Assignment of Range Improvements* (BLM Form 4120-8) for their completion as applicable.

Title 18 U.S.C. Section 1001 and Title 43 U.S.C. Section 1212, make it a crime for any person knowingly and willfully to make in any department or agency of the United States any false, fictitious or fraudulent statements or representations as to any matter within its jurisdiction.

IMPORTANT INFORMATION: Upon BLM approval of this application, BLM will update its records to reflect the change in preference holders and/or attachments of preference to base property. BLM will act upon the application for the grazing permit or lease concurrently through a separate process which will include a review and possible change to the terms and conditions of grazing use from that authorized in the previous preference holder. On a regional basis, BLM land use plans identify those public lands that are available for grazing use under a permit or lease. The terms and conditions of such permits and leases are periodically changed in response to management needs or circumstances.

a. The livestock to be grazed under the grazing permit/lease requested by this application (or under my existing permit/lease) are or will be owned by (check all that apply):

- applicant (or permittee/lessee);
- other party (except for sons and daughters of applicant or permittee/lessee). (If checked, you must complete part 2(b).)
- sons and/or daughters of applicant (or of permittee/lessee); (If checked, please answer the next two questions.)

- i. Are the sons/daughters participating in educational or youth programs related to animal husbandry, agribusiness or rangeland management, or are they actively involved in the family ranching operation and are establishing a livestock herd with the intent of assuming part or all of the family ranching operation? Yes No
- ii. Will the livestock owned by the sons/daughters comprise 30 percent or less of the total number of livestock authorized to occupy public lands under the permit/lease requested by this application (or under your existing permit/lease)? Yes No

If you answered no to either or both of the immediately preceding questions, you must complete part 2(b).

b. Based on the information you provided in part 2(a), you are required to file with BLM the agreement that gives you (the applicant or permittee/lessee) control of the livestock that you do not own that will graze under your permit or lease. This agreement must list the kind and number of livestock subject to the agreement, state who owns them, contain the terms for their care and management, specify the duration of the agreement and be signed by the parties to the agreement. BLM must approve the agreement prior to any grazing use. You must also file with BLM the brands and other identifying marks of the livestock subject to the agreement. (See 43 CFR 4130.7 (d), (e) and (f).)

State of Idaho #

On this 7th day of November, 1905, before me, R. E. Wilson,
U. S. Commissioner at Cambridge, Idaho, personally appeared
Charles R. Edwards of Cambridge, County of Washington, State of
Idaho, who being duly sworn says that he is the person who made
homestead entry No. 6928 on the 11th day of November, 1903,
embracing the NW $\frac{1}{2}$ SE $\frac{1}{2}$ of Sec. 28, T. 15 N., R. 3 W., B. M.

That he established his residence upon said tract on the 5th
day of December, 1903, and since which time has continued to live
continuously
upon and improve said premises, according to the homestead laws.

That said improvements are reasonably worth the sum of \$500.00

That he has not sold, assigned, transferred or relinquished
his said entry, nor has he agreed to do so, but that he is now
the sole bona fide owner and occupant thereof.

That this affidavit is made for the purpose of filing an
additional entry adjoining said entry, under the Act of April 28,
1904, embracing the SE $\frac{1}{2}$ NW $\frac{1}{2}$, SW $\frac{1}{2}$ NE $\frac{1}{2}$ of Sec. 28, T. 15 N., R. 3 W.
 Boise Meridian.

AFFIDAVIT REQUIRED OF CLAIMANT.

(Section 2301 of the Revised Statutes of the United States.)

I, David G. Edwards, claiming the right to commute, under section 2301 of the Revised Statutes of the United States, my homestead entry No. 4486, made upon the N^W, NW^{1/4} of Sec 28 2d N^W 15th of Sec 29 in T. 15 N. R. 27 W. of R. 21, section 29, township 15 North range 3 West of P.M., do solemnly swear that I made settlement upon said land on ^{or about} the 15th day of October 1900, and that since such date, to wit: on ^{or about} the 15th day of October, 1900, I have built a house on said land, and have continued to reside therein up to the present time; that I have broken and cultivated thirteen acres of said land, and that no part of said land has been alienated, except as provided in section 2288 of the Revised Statutes, but that I am the sole bona fide owner as an actual settler.

I further swear that I have not heretofore perfected or abandoned an entry made under the homestead laws of the United States, except

CONVEYANCING

REAL ESTATE

LOANS NEGOTIATED

CAMBRIDGE, IDAHO, NOV . 25, 1908

Register and Receiver,
U. S. Land Office,
Boise, Idaho.

Dear Sir:-

Referring to the final proof of David G. Edwards, will say that from personal knowledge and cross examination of the claimant and witnesses I find that the claimant built a small house on this homestead about 5 or 6 years ago and, in a manner, established his residence on the place with his family, but the family did not continue to live on the place until about the month of November, 1905, at which time they had a new and better house built on the premises, and since then have lived there continuously. During the period from the time of building the first house to the building of the second, the claimant slept there, as he says, most of the time. Of this I do not know.

He was working his sons place adjoining this land, which had a comfortable house on it and the family practically lived there up until one year ago, at which time he ceased to have anything to do with his sons place and moved on to his own homestead and stayed there. He has cultivated about 10 or 15 acres of ^{his} land for the last five or six years, and has something like 15 acres fenced. The claimant would be entitled to soldier's ^{service} ~~additional~~ time for two years and 10 or 11 months.

I thought possibly that his good faith, and scanty residence prior to 1905, together with the continuous residence since, would be sufficient to allow him to commute upon the place, at least, I told the applicant that it did not look like he had any show under

I desire to graze these animals upon that part of the forest described as follows:

East Pass & North Pass

Provided. That they shall not intrude upon any areas upon which grazing is prohibited.
 If this application is granted, in whole or in part, I do hereby agree to deposit the amount due for grazing fees to the credit of the Forest Service in the U. S. Depository designated by the letter of transmittal before allowing any of my stock to enter the National Forest.

I also hereby bind myself and my employees engaged in caring for the animals while on the forest to extinguish all camp fires started by myself or any of my employees before leaving the vicinity thereof, and to render all reasonable aid in extinguishing forest fires within the district in which the stock is grazed, such service to be without compensation if required to protect the grazing area allotted to me and described in my grazing permit, but at the prevailing rate of compensation if otherwise.

I also hereby agree that I will allow my stock to graze only upon lands of the United States within the areas specified in the permit; that I will obey and support all the laws and regulations governing National Forests, and that I will pay for all damages sustained by the United States, through any violation, by myself or my employees, of such laws or regulations, or of the terms hereof, or of the permit issued upon this application.

I also agree to forfeit the permit whenever the National Forest for any reason ceases to exist, or for a violation of the National Forest regulations now or hereafter adopted or of any of the terms hereof, or of the terms of the permit issued hereupon, or whenever an injury is being done to the forest by reason of the presence of the animals therein.

It is hereby expressly agreed and understood that no stock marked or branded otherwise than as shown above will be grazed upon National Forest land under the permit herein applied for except with the approval of the Forest Supervisor based upon a showing of actual ownership of such stock.

I CERTIFY that all of the foregoing answers and statements are true and correct to the best of my knowledge and belief.
