**COMMENCEMENT NOTICE**

**Property Owners within Caribou  
and Franklin Counties within  
IDWR’s Administrative  
Basin 13: Mailing Group 2**

**TO: ALL PERSONS OWNING RIGHTS TO THE USE OF WATER WITHIN THE  
BEAR RIVER BASIN WATER SYSTEM**

A comprehensive determination of the nature, extent, and priority of the rights of surface and ground water users is required for effective water management in the State of Idaho. Adjudication of all water rights in the Bear River Basin will ensure proper delivery of water in times of shortage and ensure certainty of water right ownership to property owners.

The purpose of this notice is to inform you of the commencement of the Bear River Basin Adjudication and your legal responsibilities at this stage of the adjudication. You are receiving this notice because you may be the owner of property located within the boundaries of the Bear River Basin Adjudication.

**I. YOU ARE HEREBY NOTIFIED THAT**

On June 15, 2021, the Fifth Judicial District Court in and for the County of Twin Falls issued an order commencing a general adjudication of water rights within the Bear River Basin water system in Idaho. A general adjudication is a court case which will result in a decree determining all water rights within a water system. The purpose of the adjudication is to determine the elements and necessary provisions for the administration of water rights and to compile an inventory of all the water rights in the Bear River Basin water system.

**II. GENERAL REQUIREMENT TO FILE A NOTICE OF CLAIM**

Idaho Code § 42-1409 requires that a Notice of Claim be filed for all water rights within the boundaries of the Bear River Basin water system in the State of Idaho, except for certain water rights specifically excluded by law. “All water rights within the boundaries of the Bear River Basin water system in Idaho” includes rights to the use of water from any water source including streams, springs, lakes, ground water, developed water, waste water, or any other source. A map showing the boundaries of the water system is included at the end of this notice. The Notice of Claim must be filed with the Idaho Department of Water Resources (IDWR). **Failure to file a required notice of claim will result in a determination by the court that the water right no longer exists.**

**Your Filing Deadline is: February 7, 2025**

A Notice of Claim must be filed for all water rights based upon state law by the deadline above, except for de minimis domestic and/or stockwater rights or permits for which proof of beneficial use was filed after June 15, 2021. See section III. below. Water rights based on state law include water rights established by the diversion and application of water to a beneficial use, decreed rights, licensed rights, or water right permits if proof of beneficial use was filed on or before June 15, 2021.

For all water rights based upon federal law, a Notice of Claim or negotiated agreement must be filed by the deadline above, unless an alternative filing schedule is adopted by the Bear River Basin Adjudication District Court.

### III. EXCEPTIONS TO THE GENERAL REQUIREMENT TO FILE A NOTICE OF CLAIM

#### A. *DE MINIMIS* (SMALL) DOMESTIC AND STOCKWATER CLAIMS

Water users of a small domestic and/or stockwater (“D&S”) right, as defined by Idaho Code §§ 42-111 & 42-1401A, may elect to file a Notice of Claim now or defer (postpone) the filing until a later time in this proceeding. Although the Court has not yet set a deadline for filing claims for “deferrable” D&S water rights in the Bear River Basin, the opportunity to defer filing will not be indefinite. The Court will establish a filing deadline for small D&S water rights in the future. The current fee for filing a Notice of Claim with the Idaho Department of Water Resources for a small D&S water right is \$25.

The Idaho Department of Water Resources recommends filing a claim for a small D&S water right at this time and not deferring. **In times of water shortage, water is delivered to water right holders by a watermaster. Watermasters deliver water as authorized by a water right decreed by a court or approved by IDWR. The owner of a D&S right which has not been established through a license or decree, who elects to defer the filing of a Notice of Claim until a later time will be required to adjudicate the water right prior to distribution by a watermaster and/or before an application for change of the water right may be filed with IDWR.**

Water right holders who elect to defer filing at this time may be required to file, at a later date, a motion with the Court to have the water right adjudicated. These water rights holders may also be required to pay their own costs of serving notice of the motion, advertising, and all costs incurred for investigation and preparation of a report to be filed with the Court. In short, waiting will result in significantly more work and more expense for the water right holder.

A water right holder should be certain their water use qualifies for the deferral procedure for D&S rights before deciding not to file a Notice of Claim at this time. A D&S right holder will be bound by the terms of any decrees entered in this adjudication (including the limitation on D&S water rights that may be adjudicated at a later date) regardless of whether or not the water right holder files a notice of claim for the D&S right at this time. For more information, please consult Idaho Code §§ 42-111 and 42-1401A.

#### B. OTHER EXCEPTIONS

A Notice of Claim is not required to be filed for water right permits for which proof of beneficial use was filed after June 15, 2021. However, the Director of the Idaho Department of Water Resources may, at a later date, require holders of such permits to file a Notice of Claim. If the Director does issue such an order, the permit holder will be notified by mail. A Notice of Claim is not required for an application for permit that has been filed with IDWR but has not yet been approved.

Additionally, a water user need not file a Notice of Claim where the water user is not the owner of the water right. For example, a Notice of Claim is not required for any person who receives water solely by virtue of ownership of shares of stock in, or by being located within the boundary of a water delivery organization, if the water delivery organization holds legal title to the water right(s) and if the water delivery organization files a Notice of Claim. Examples of water delivery organizations that may hold legal title to water rights include, but are not limited to, cities, water utility districts or companies, and irrigation districts.

### IV. NOTICE OF CLAIM FORMS AND INSTRUCTIONS

A Notice of Claim must be filed on forms provided by IDWR or online at [www.idwr.idaho.gov](http://www.idwr.idaho.gov). When filing at an IDWR regional office, please bring a description of the property with Township, Range, Section and Quarter-Quarters, or the county parcel number. **Subdivision lot and block numbers are not sufficient.** IDWR staff members are available to meet in person or by phone with Claimants who want assistance filling out a Notice of Claim. **Claimants should call the nearest IDWR office to schedule an appointment if in-person help is needed in filling out a Notice of Claim.** Notice of Claim forms and instructions for completing and filing the forms are available online at [www.idwr.idaho.gov](http://www.idwr.idaho.gov) or at the following locations:

## **V. FEES AND DEADLINES FOR FILING A NOTICE OF CLAIM**

Idaho Code § 42-1414 requires each person who files a Notice of Claim to pay a filing fee. Failure to pay the fee will result in the rejection of the Notice of Claim.

The persons receiving this Notice have property within Caribou and Franklin Counties and are within IDWR's Administrative Basin 13. The deadline for filing a Notice of Claim for water rights in your area is **February 7, 2025**. A Notice of Claim filed after this date may be accepted prior to the filing of the director's report with the Court, but failure to file a Notice of Claim by the established deadline may result in the assessment of a late fee of \$50.00 or 15% of the original filing fee, whichever is greater. Idaho Code § 42-1409A imposes substantial restrictions on the filing of amended or late Notices of Claim.

## **VII. NOTICE TO IDWR OF CHANGE IN OWNERSHIP OR ADDRESS**

Idaho Code § 42-1409 requires all purchasers of a water right to inquire of IDWR whether a Notice of Claim has been filed. If a Notice of Claim has not been filed, the purchaser must file any required Notice of Claim. If a Notice of Claim has been filed, the purchaser must file with IDWR a written notice of the change in ownership along with sufficient evidence of ownership. "Purchaser" includes any person acquiring a water right from another water user, whether it is acquired by purchase, gift, inheritance, or any other means. Idaho Code § 42-1409 also requires all persons who have filed a Notice of Claim to file a written notice of any change in address with IDWR.

## **VIII. FURTHER INFORMATION**

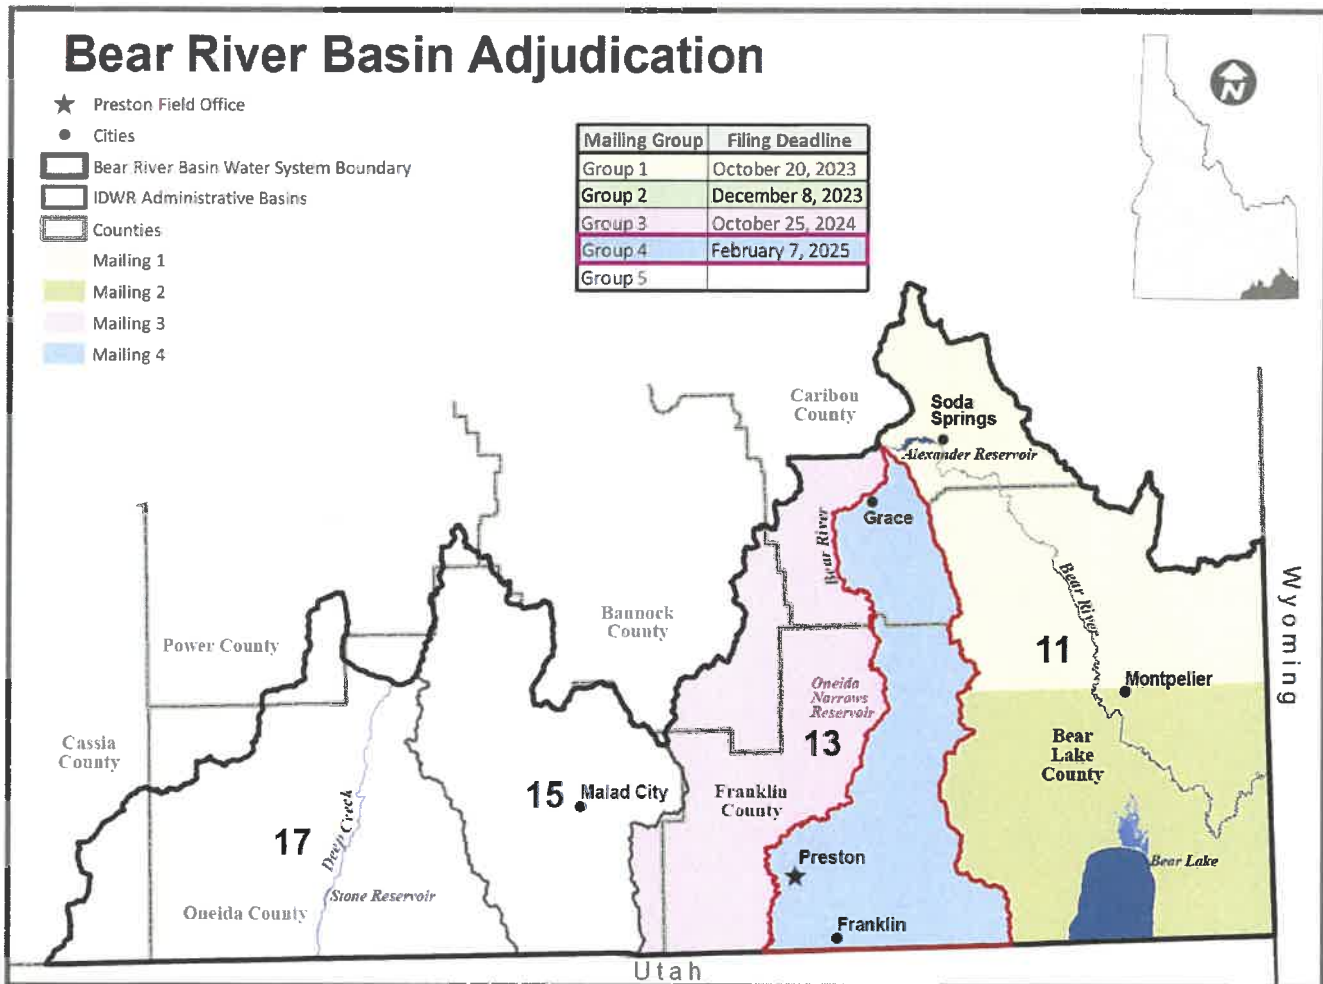

The files of the BRBA District Court will contain affidavits of service and other documents listing the persons served with a copy of this notice. Assistance in filing Notices of Claims may be obtained at all offices of IDWR, which are listed above.

If you want information regarding Notice of Claims filed with IDWR in this adjudication, you may inquire at any IDWR office or online at [www.idwr.idaho.gov](http://www.idwr.idaho.gov). If you want information on other documents filed with the Court in the Bear River Basin Adjudication, you may obtain a copy of the docket sheet from the BRBA District Court at [www.brba.idaho.gov](http://www.brba.idaho.gov); or at the Court's physical address, 253 3<sup>rd</sup> Avenue North, P.O. Box 2707, Twin Falls, Idaho 83303-2707. The docket sheet is prepared each month and contains a summary of all documents filed with the Court in the previous month as well as the dates and locations of hearings set for the following three months. You can get a copy of a docket sheet for the cost of mailing and/or copying, or you may sign up for a subscription to receive the docket sheet each month. The docket sheet will also be filed with the District Court Clerk for each county within the boundaries of the Bear River Basin water system in Idaho.

# FREQUENTLY ASKED QUESTIONS

## BEAR RIVER BASIN ADJUDICATION – GENERAL

1. **What is a water right adjudication?** An adjudication is a court proceeding that inventories and catalogs water rights existing at a snapshot in time. The court issues a decree confirming the elements of each water right. In this case, the Idaho Supreme Court designated an Idaho district court to conduct the adjudication. IDWR aids and advises the court.
2. **Why did I receive a Commencement Notice?** Idaho law requires the IDWR Director to serve notice by mail on each person or entity owning real property within the boundaries of the water basin being adjudicated. If you own multiple properties within the boundary, you might receive more than one Commencement Notice.
3. **Why did my friend/neighbor NOT receive a Commencement notice?** Due to the large size of the Bear River Basin Adjudication, IDWR will send notice to all property owners in multiple mailing groups. Each mailing group will have its own filing deadline. Consequently, not all property owners within the Bear River Basin Adjudication boundary will receive notice at the same time.
4. **How do I know if I have a water right?** In Idaho, establishing a water right requires that water is diverted and put to beneficial use. If there is no history of diversion and use, then a water right has not been established. Prior to March 25, 1963, for ground water, and May 20, 1971, for surface water, a water right could be established by simply diverting water and putting it to beneficial use. The permit system for establishing a water right became mandatory for uses developed from ground water after March 25, 1963 (except for domestic purposes as defined by Section 42-111, Idaho Code), and for uses developed from surface water after May 20, 1971 (except for watering stock directly from streams).
5. **If I have undeveloped property and water has never been used on it, do I need to file a claim?** No. An adjudication is a court action for the determination of existing water rights. When you want to begin using water, contact the Idaho Department of Water Resources to file an application for permit.
6. **If I receive my water from a city system or water district, do I need to file a claim?** If you are supplied water by a city, water district, or other water delivery organization, that entity should file a claim for your use.
7. **Why is the Bear River Basin being adjudicated?** Water resources in the Bear River Basin are shared with the State of Utah and the State of Wyoming. To best protect the interests of Idaho water users, Idaho's water managers must know the extent of the valid water rights in Idaho. An adjudication is the only way to determine this. In addition, population growth in Idaho is adding pressure on water resources. According to the Idaho Constitution and Idaho law, in a time of water shortage, Idaho water right holders with older water rights have priority over newer water rights. This is sometimes called the "first in time is first in right" principal. For each water right, the date of first water use is called the priority date. The adjudication will determine the relative priorities of all the water rights diverted from a water source.
8. **Will the Idaho Department of Water Resources (IDWR) require meters on private domestic wells as part of the adjudication?** No. An adjudication determines the priority and other elements of existing water rights. It does not address the day-to-day administration of water rights. This is not to say IDWR would never require a well to be metered. For example, if a dispute arose between water users over the impact of ground water pumping on the supply of water available to water right owners, IDWR may require metering of the wells involved in the dispute. However, IDWR does not have the directive, need, or resources to require meters on all private domestic wells.
9. **Can I complete the claim form myself?** Yes, most claimants complete the claim forms without requiring additional assistance. The online claim filing procedure walks you through the process, and everything you need to know to get started can be found here: <https://research.idwr.idaho.gov/apps/Adjudication/OcLogin>. Or, if you prefer to submit a paper form, links to downloadable claim forms and instructions can be found here: <https://idwr.idaho.gov/form/adjudication/>.
10. **What happens if I don't file a claim?** If an adjudication claim is required for your water use, failure to file that claim before the final decree will result in a determination that the water right no longer exists. However, as stated on page 2 of the Commencement Notice, water users with small domestic and/or stockwater rights, as defined in Idaho Code §§ 42-111 & 42-1401A, may defer (postpone) filing a claim until a later time in the adjudication proceeding. Although a deadline for filing claims for these "deferrable" domestic and stockwater rights has not been set, the opportunity to defer filing is not indefinite. At some future time, the court will establish a filing deadline for small domestic and stockwater rights. IDWR recommends filing a claim for a small domestic or stockwater right now and not deferring.

IMPORTANT WATER RIGHTS INFORMATION IN THE DISTRICT COURT OF THE FIFTH JUDICIAL DISTRICT OF THE
STATE OF IDAHO, IN AND FOR THE COUNTY OF TWIN FALLS
Civil No. 00-78576

In Re: The General Adjudication of Rights to the Use of Water from the Bear River Basin Water System.

TO: ALL PERSONS OWNING RIGHTS TO THE USE OF WATER WITHIN THE BEAR RIVER BASIN WATER SYSTEM

A comprehensive determination of the nature, extent, and priority of the rights of surface and ground water users is required for effective water management in the State of Idaho. Adjudication of all water rights in the Bear River Basin will ensure proper delivery of water in times of shortage and ensure certainty of water right ownership to property owners.

On June 15, 2021, the Fifth Judicial District Court in and for the County of Twin Falls issued an order commencing a general adjudication of water rights within the Bear River Basin water system in Idaho. A general adjudication is a court case which will result in a decree determining all water rights within a water system. The purpose of the adjudication is to determine the elements and necessary provisions for the administration of water rights and to compile an inventory of all the water rights in the Bear River Basin water system.

II. GENERAL REQUIREMENT TO FILE A NOTICE OF CLAIM

Idaho Code § 42-1409 requires that a Notice of Claim be filed for all water rights within the boundaries of the Bear River Basin water system in the State of Idaho, except for certain water rights specifically excluded by law. All water rights within the boundaries of the Bear River Basin water system in Idaho includes rights to the use of water from any water source including streams, springs, lakes, ground water, developed water, waste water, or any other source.

Your Filing Deadline is: February 7, 2025

A Notice of Claim must be filed for all water rights based upon state law by the deadline above, except for de minimis domestic and/or stockwater rights or permits for which proof of beneficial use was filed after June 15, 2021. See section III, below. Water rights based on state law include water rights established by the diversion and application of water to a beneficial use, decreed rights, licensed rights, or water right permits if proof of beneficial use was filed on or before June 15, 2021.

III. EXCEPTIONS TO THE GENERAL REQUIREMENT TO FILE A NOTICE OF CLAIM

A. DE MINIMIS (SMALL) DOMESTIC AND STOCKWATER CLAIMS

Water users of a small domestic and/or stockwater (D&S) right, as defined by Idaho Code §§ 42-111 & 42-1401A, may elect to file a Notice of Claim now or defer (postpone) the filing until a later time in this proceeding. Although the Court has not yet set a deadline for filing claims for "deferrable" D&S water rights in the Bear River Basin, the opportunity to defer filing will not be indefinite. The Court will establish a filing deadline for small D&S water rights in the future. The current fee for filing a Notice of Claim with the Idaho Department of Water Resources for a small D&S water right is \$25.

The Idaho Department of Water Resources recommends filing a claim for a small D&S water right at this time and not deferring. In times of water shortages, water is delivered to water right holders by a watermaster. Watermasters deliver water as authorized by a water right decreed by a court or approved by IDWR. The owner of a D&S right which has not been established through a license or decree, who elects to defer the filing of a Notice of Claim until a later time will be required to adjudicate the water right prior to distribution by a watermaster and/or before an application for change of the water right may be filed with IDWR.

Water right holders who elect to defer filing at this time may be required to file, at a later date, a motion with the Court to have the water right adjudicated. These water right holders may also be required to pay their own costs of serving notice of the motion, advertising, and all costs incurred for investigation and preparation of a report to be filed with the Court. In short, waiting will result in significantly more work and more expense for the water right holder.

A water right holder should be certain their water use complies with the deferral procedure for D&S rights before deciding not to file a Notice of Claim at this time. A D&S right holder will be bound by the terms of any decrees entered in this adjudication (including the limitation on D&S water rights that may be adjudicated at a later date) regardless of whether or not the water right holder files a notice of claim for the D&S right at this time. For more information, please consult Idaho Code §§ 42-111 and 42-1401A.

B. OTHER EXCEPTIONS

A Notice of Claim is not required to be filed for water right permits for which proof of beneficial use was filed after June 15, 2021. However, the Director of the Idaho Department of Water Resources may, at a later date, require holders of such permits to file a Notice of Claim. If the Director does issue such an order, the permit holder will be notified by mail. A Notice of Claim is not required for an application for permit that has been filed with IDWR but has not yet been approved.

Additionally, a water user need not file a Notice of Claim when the water user is not the owner of the water right. For example, a Notice of Claim is not required for any person who receives water solely by virtue of ownership of shares of stock in, or by being located within the boundary of a water delivery organization, if the water delivery organization holds legal title to the water right(s) and if the water delivery organization files a Notice of Claim. Examples of water delivery organizations that may hold legal title to water rights include, but are not limited to, cities, water utility districts or companies, and irrigation districts.

IV. NOTICE OF CLAIM FORMS AND INSTRUCTIONS

A Notice of Claim must be filed on forms provided by IDWR or online at www.idwr.idaho.gov. When filing at an IDWR regional office, please bring a description of the property with Township, Range, Section and Quarter-Quarters, or the county parcel number. Subdivision lot and block numbers are not sufficient. IDWR staff members are available to meet in person or by phone with claimants who want assistance filling out a Notice of Claim. Claimants should call the nearest IDWR office to schedule an appointment if in-person help is needed in filling out a Notice of Claim. Notice of Claim forms and instructions for completing and filing the forms are available online at www.idwr.idaho.gov or at the following locations:

- 1. IDWR, Preston Field Office, 325 E. 600 S, Suite 300, Preston, ID 83263-4921 Phone: (208) 701-7200;

V. FEES AND DEADLINES FOR FILING A NOTICE OF CLAIM

Idaho Code § 42-1414 requires each person who files a Notice of Claim to pay a filing fee. Failure to pay the fee will result in the rejection of the Notice of Claim.

The persons receiving this Notice have property within Caribou and Franklin Counties and are within IDWR's Administrative Basin 13. The deadline for filing a Notice of Claim for water rights in your area is February 7, 2025. A Notice of Claim filed after this date may be accepted prior to the filing of the director's report with the Court, but failure to file a Notice of Claim by the established deadline may result in the assessment of a late fee of \$50.00 or 15% of the original filing fee, whichever is greater. Idaho Code § 42-1409A imposes substantial restrictions on the filing of amended or late Notices of Claim.

VII. NOTICE TO IDWR OF CHANGE IN OWNERSHIP OR ADDRESS

Idaho Code § 42-1409 requires all purchasers of a water right to inquire of IDWR whether a Notice of Claim has been filed. If a Notice of Claim has not been filed, the purchaser must file any required Notice of Claim. If a Notice of Claim has been filed, the purchaser must file with IDWR a written notice of the change in ownership along with sufficient evidence of ownership. "Purchase" includes any person acquiring a water right from another water user, whether it is acquired by purchase, gift, inheritance, or any other means. Idaho Code § 42-1409 also requires all persons who have filed a Notice of Claim to file a written notice of any change in address with IDWR.

VIII. FURTHER INFORMATION

The files of the BRBA District Court will contain affidavits of service and other documents listing the persons served with a copy of this notice. Assistance in filing Notices of Claims may be obtained at all offices of IDWR, which are listed above.

If you want information regarding Notices of Claims filed with IDWR in this adjudication, you may inquire at any IDWR office or online at www.idwr.idaho.gov. If you want information on other documents filed with the Court in the Bear River Basin Adjudication, you may obtain a copy of the docket sheet from the BRBA District Court at www.brba.idaho.gov; or at the Court's physical address, 253 3rd Avenue North, P.O. Box 2707, Twin Falls, Idaho 83303-2707. The docket sheet is prepared each month and contains a summary of all documents filed with the Court in the previous month as well as the dates and locations of hearings set for the following three months. You can get a copy of a docket sheet for the cost of mailing and/or copying, or you may sign up for a subscription to receive the docket sheet each month. The docket sheet will also be filed with the District Court Clerk for each county within the boundaries of the Bear River Basin water system in Idaho.

 Civil No. 00-79576

In Re: The General Adjudication of Rights to the Use of Water from the Bear River Basin Water System.

**TO: ALL PERSONS OWNING RIGHTS TO THE USE OF WATER WITHIN THE BEAR RIVER BASIN WATER SYSTEM**  
 A comprehensive delamination of the nature, extent, and priority of the rights of surface and ground water users is required for effective water management in the State of Idaho. Adjudication of all water rights in the Bear River Basin will ensure proper delivery of water in times of shortage and ensure certainty of water right ownership to property owners. The purpose of this notice is to inform you of the commencement of the Bear River Basin Adjudication and your legal responsibilities at this stage of the adjudication. You are receiving this notice because you may be the owner of property located within the boundaries of the Bear River Basin Adjudication.

**I. YOU ARE HEREBY NOTIFIED THAT**  
 On June 16, 2021, the Fifth Judicial District Court in and for the County of Twin Falls issued an order commencing a general adjudication of water rights within the Bear River Basin water system in Idaho. A general adjudication is a court case which will result in a decree determining all water rights within a water system. The purpose of the adjudication is to determine the elements and necessary provisions for the administration of water rights and to compile an inventory of all the water rights in the Bear River Basin water system.

**II. GENERAL REQUIREMENT TO FILE A NOTICE OF CLAIM**  
 Idaho Code § 42-1409 requires that a Notice of Claim be filed for all water rights within the boundaries of the Bear River Basin water system in the State of Idaho, except for certain water rights specifically excluded by law. All water rights within the boundaries of the Bear River Basin water system in Idaho include rights to the use of water from any water source including streams, springs, lakes, ground water, developed water, waste water, or any other source. A map showing the boundaries of the water system is included at the end of this notice. The Notice of Claim must be filed with the Idaho Department of Water Resources (IDWR). Failure to file a required notice of claim will result in a determination by the court that the water right no longer exists.

**Your Filing Deadline is: February 7, 2025.**

A Notice of Claim must be filed for all water rights based upon state law by the deadline above, ~~except for determining domestic and/or stockwater rights or permits for which proof of beneficial use was filed after June 15, 2021.~~ See section III below. Water rights based on state law include water rights established by the diversion and application of water to a beneficial use, decreed rights, licensed rights, or water right permits if proof of beneficial use was filed on or before June 15, 2021. For all water rights based upon federal law, a Notice of Claim or negotiated agreement must be filed by the deadline above, unless an alternative filing schedule is adopted by the Bear River Basin Adjudication District Court.

**III. EXCEPTIONS TO THE GENERAL REQUIREMENT TO FILE A NOTICE OF CLAIM**

**A. DE MINIMIS (SMALL DOMESTIC AND STOCKWATER CLAIMS)**  
 Water users of a small domestic and/or stockwater right, as defined by Idaho Code §§ 42-111 & 42-1401A, may elect to file a Notice of Claim now or defer (postpone) the filing until a later time in this proceeding. Although the Court has not yet set a deadline for filing claims for "deferable" D&S water rights in the Bear River Basin, the opportunity to defer filing will not be indefinite. The Court will establish a filing deadline for small D&S water rights in the future. The current fee for filing a Notice of Claim with the Idaho Department of Water Resources for a small D&S water right is \$25. The Idaho Department of Water Resources recommends filing a claim for a small D&S water right at this time and not deferring. In times of water shortage, water is delivered to water right holders by a watermaster. Watermasters deliver water as authorized by a water right decreed by a court or approved by IDWR. The owner of a D&S right which has not been established through a license or decree, who elects to defer the filing of a Notice of Claim until a later time will be required to adjudicate the water right prior to distribution by a watermaster and/or before an application for change of the water right may be filed with IDWR. Water right holders who elect to defer filing at this time may be required to file, at a later date, a motion with the Court to have the water right adjudicated. These water rights holders may also be required to pay their own costs of serving notice of the motion, advertising, and all costs incurred for investigation and preparation of a report to be filed with the Court. In short, waiting will result in significantly more work and more expense for the water right holder. A water right holder should be certain their water use qualifies for the deferral procedure for D&S rights before deciding not to file a Notice of Claim at this time. A D&S right holder will be bound by the terms of any decrees entered in this adjudication (including the limitation on D&S water rights that may be adjudicated at a later time) regardless of whether or not the water right holder files a notice of claim for the D&S right at this time. For more information, please consult Idaho Code §§ 42-111 and 42-1401A.

**R. OTHER EXCEPTIONS**  
 A Notice of Claim is not required to be filed for water right permits for which proof of beneficial use was filed after June 15, 2021. However, the Director of the Idaho Department of Water Resources may, at a later date, require holders of such permits to file a Notice of Claim. If the Director does issue such an order, the permit holder will be notified by mail. A Notice of Claim is not required for an application for permit that has been filed with IDWR but has not yet been approved. Additionally, a water user need not file a Notice of Claim where the water user is not the owner of the water right. For example, a Notice of Claim is not required for any person who receives water solely by virtue of ownership of shares of stock in, or by being located within the boundary of a water delivery organization, if the water delivery organization holds legal title to the water right(s) and if the water delivery organization files a Notice of Claim. Examples of water delivery organizations that may hold legal title to water rights include, but are not limited to, cities, water utility districts or companies, and irrigation districts.

**IV. NOTICE OF CLAIM FORMS AND INSTRUCTIONS**  
 A Notice of Claim must be filed on forms provided by IDWR or online at [www.idwr.idaho.gov](http://www.idwr.idaho.gov). When filing at an IDWR regional office, please bring a description of the property with Township, Range, Section and Quarter-Quarters, or the county parcel number. Subdivision lot and block numbers are not sufficient. IDWR staff members are available to meet in person or by phone with claimants who want assistance filling out a Notice of Claim. Claimants should call the nearest IDWR office to schedule an appointment. **V. FEES AND DEADLINES FOR FILING A NOTICE OF CLAIM**  
 Idaho Code § 42-1414 requires each person who files a Notice of Claim to pay a filing fee. Failure to pay the fee will result in the rejection of the Notice of Claim. The persons receiving this Notice have property within Caribou and Franklin Counties and are within IDWR's Administrative Basin 13. The deadline for filing a Notice of Claim for water rights in your area is February 7, 2025. A Notice of Claim filed after this date may be accepted prior to the filing of the director's report with the Court, but failure to file a Notice of Claim by the established deadline may result in the assessment of a late fee of \$50.00 or 15% of the original filing fee, whichever is greater. Idaho Code § 42-1409A imposes substantial restrictions on the filing of amended or late Notices of Claim.

**VII. NOTICE TO IDWR OF CHANGE IN OWNERSHIP OR ADDRESS**  
 Idaho Code § 42-1409 requires all purchasers of a water right to inquire of IDWR whether a Notice of Claim has been filed. If a Notice of Claim has not been filed, the purchaser must file any required Notice of Claim. If a Notice of Claim has been filed, the purchaser must file with IDWR a written notice of the change in ownership along with sufficient evidence of ownership. "Purchase" includes any person acquiring a water right from another water user, whether it is acquired by purchase, gift, inheritance, or any other means. Idaho Code § 42-1409 also requires all persons who have filed a Notice of Claim to file a written notice of any change in address with IDWR.

**VIII. FURTHER INFORMATION**  
 The files of the BRBA District Court will contain affidavits of service and other documents listing the persons served with a copy of this notice. Assistance in filing Notices of Claims may be obtained at all offices of IDWR, which are listed above. If you want information regarding Notices of Claims filed with IDWR in this adjudication, you may inquire at any IDWR office or online at [www.idwr.idaho.gov](http://www.idwr.idaho.gov). If you want information on other documents filed with the Court in the Bear River Basin Adjudication, you may obtain a copy of the docket sheet from the BRBA District Court at [www.brba.idaho.gov](http://www.brba.idaho.gov); or at the Court's physical address, 253 3rd Avenue North, P.O. Box 2707, Twin Falls, Idaho 83303-2707. The docket sheet is prepared each month and contains a summary of all documents filed with the Court in the previous month as well as the dates and locations of hearings set for the following three months. You can get a copy of a docket sheet for the cost of mailing and/or copying, or you may sign up for a subscription to receive the docket sheet each month. The docket sheet will also be filed with the District Court Clerk for each county within the boundaries of the Bear River Basin water system in Idaho.

A comprehensive determination of the nature, extent, and priority of the rights of surface and ground water users is required for effective water management in the State of Idaho. Adjudication of all water rights in the Bear River Basin will ensure proper delivery of water in times of shortage and ensure certainty of water right ownership to property owners.

The purpose of this notice is to inform you of the commencement of the Bear River Basin Adjudication and your legal responsibilities at this stage of the adjudication. You are receiving this notice because you may be the owner of property located within the boundaries of the Bear River Basin Adjudication.

**I. YOU ARE HEREBY NOTIFIED THAT**

On June 15, 2021, the Fifth Judicial District Court in and for the County of Twin Falls issued an order commencing a general adjudication of water rights within the Bear River Basin water system in Idaho. A general adjudication is a court case which will result in a decree determining all water rights within a water system. The purpose of the adjudication is to determine the elements and necessary provisions for the administration of water rights and to compile an inventory of all the water rights in the Bear River Basin water system.

**II. GENERAL REQUIREMENT TO FILE A NOTICE OF CLAIM**

Idaho Code § 42-1409 requires that a Notice of Claim be filed for all water rights within the boundaries of the Bear River Basin water system in the State of Idaho, except for certain water rights specifically excluded by law. "All water rights within the boundaries of the Bear River Basin water system in Idaho" includes rights to the use of water from any water source including streams, springs, lakes, ground water, developed water, waste water, or any other source. A map showing the boundaries of the water system is included at the end of this notice. The Notice of Claim must be filed with the Idaho Department of Water Resources (IDWR). **Failure to file a required notice of claim will result in a determination by the court that the water right no longer exists.**

**Your Filing Deadline is: February 7, 2025**

A Notice of Claim must be filed for all water rights based upon state law by the deadline above, except for de minimis domestic and/or stockwater rights or permits for which proof of beneficial use was filed after June 15, 2021. See section III. below. Water rights based on state law include water rights established by the diversion and application of water to a beneficial use, decreed rights, licensed rights, or water right permits if proof of beneficial use was filed on or before June 15, 2021.

For all water rights based upon federal law, a Notice of Claim or negotiated agreement must be filed by the deadline above, unless an alternative filing schedule is adopted by the Bear River Basin Adjudication District Court.

### III. EXCEPTIONS TO THE GENERAL REQUIREMENT TO FILE A NOTICE OF CLAIM

#### A. *DE MINIMIS* (SMALL) DOMESTIC AND STOCKWATER CLAIMS

Water users of a small domestic and/or stockwater (“D&S”) right, as defined by Idaho Code §§ 42-111 & 42-1401A, may elect to file a Notice of Claim now or defer (postpone) the filing until a later time in this proceeding. Although the Court has not yet set a deadline for filing claims for “deferrable” D&S water rights in the Bear River Basin, the opportunity to defer filing will not be indefinite. The Court will establish a filing deadline for small D&S water rights in the future. The current fee for filing a Notice of Claim with the Idaho Department of Water Resources for a small D&S water right is \$25.

The Idaho Department of Water Resources recommends filing a claim for a small D&S water right at this time and not deferring. **In times of water shortage, water is delivered to water right holders by a watermaster. Watermasters deliver water as authorized by a water right decreed by a court or approved by IDWR. The owner of a D&S right which has not been established through a license or decree, who elects to defer the filing of a Notice of Claim until a later time will be required to adjudicate the water right prior to distribution by a watermaster and/or before an application for change of the water right may be filed with IDWR.**

Water right holders who elect to defer filing at this time may be required to file, at a later date, a motion with the Court to have the water right adjudicated. These water rights holders may also be required to pay their own costs of serving notice of the motion, advertising, and all costs incurred for investigation and preparation of a report to be filed with the Court. In short, waiting will result in significantly more work and more expense for the water right holder.

A water right holder should be certain their water use qualifies for the deferral procedure for D&S rights before deciding not to file a Notice of Claim at this time. A D&S right holder will be bound by the terms of any decrees entered in this adjudication (including the limitation on D&S water rights that may be adjudicated at a later date) regardless of whether or not the water right holder files a notice of claim for the D&S right at this time. For more information, please consult Idaho Code §§ 42-111 and 42-1401A.

#### B. OTHER EXCEPTIONS

A Notice of Claim is not required to be filed for water right permits for which proof of beneficial use was filed after June 15, 2021. However, the Director of the Idaho Department of Water Resources may, at a later date, require holders of such permits to file a Notice of Claim. If the Director does issue such an order, the permit holder will be notified by mail. A Notice of Claim is not required for an application for permit that has been filed with IDWR but has not yet been approved.

Additionally, a water user need not file a Notice of Claim where the water user is not the owner of the water right. For example, a Notice of Claim is not required for any person who receives water solely by virtue of ownership of shares of stock in, or by being located within the boundary of a water delivery organization, if the water delivery organization holds legal title to the water right(s) and if the water delivery organization files a Notice of Claim. Examples of water delivery organizations that may hold legal title to water rights include, but are not limited to, cities, water utility districts or companies, and irrigation districts.

### IV. NOTICE OF CLAIM FORMS AND INSTRUCTIONS

A Notice of Claim must be filed on forms provided by IDWR or online at [www.idwr.idaho.gov](http://www.idwr.idaho.gov). ## V. FEES AND DEADLINES FOR FILING A NOTICE OF CLAIM

Idaho Code § 42-1414 requires each person who files a Notice of Claim to pay a filing fee. Failure to pay the fee will result in the rejection of the Notice of Claim.

The persons receiving this Notice have property within Caribou and Franklin Counties and are within IDWR's Administrative Basin 13. The deadline for filing a Notice of Claim for water rights in your area is **February 7, 2025**. A Notice of Claim filed after this date may be accepted prior to the filing of the director's report with the Court, but failure to file a Notice of Claim by the established deadline may result in the assessment of a late fee of \$50.00 or 15% of the original filing fee, whichever is greater. Idaho Code § 42-1409A imposes substantial restrictions on the filing of amended or late Notices of Claim.

## VII. NOTICE TO IDWR OF CHANGE IN OWNERSHIP OR ADDRESS

Idaho Code § 42-1409 requires all purchasers of a water right to inquire of IDWR whether a Notice of Claim has been filed. If a Notice of Claim has not been filed, the purchaser must file any required Notice of Claim. If a Notice of Claim has been filed, the purchaser must file with IDWR a written notice of the change in ownership along with sufficient evidence of ownership. "Purchaser" includes any person acquiring a water right from another water user, whether it is acquired by purchase, gift, inheritance, or any other means. Idaho Code § 42-1409 also requires all persons who have filed a Notice of Claim to file a written notice of any change in address with IDWR.

## VIII. FURTHER INFORMATION

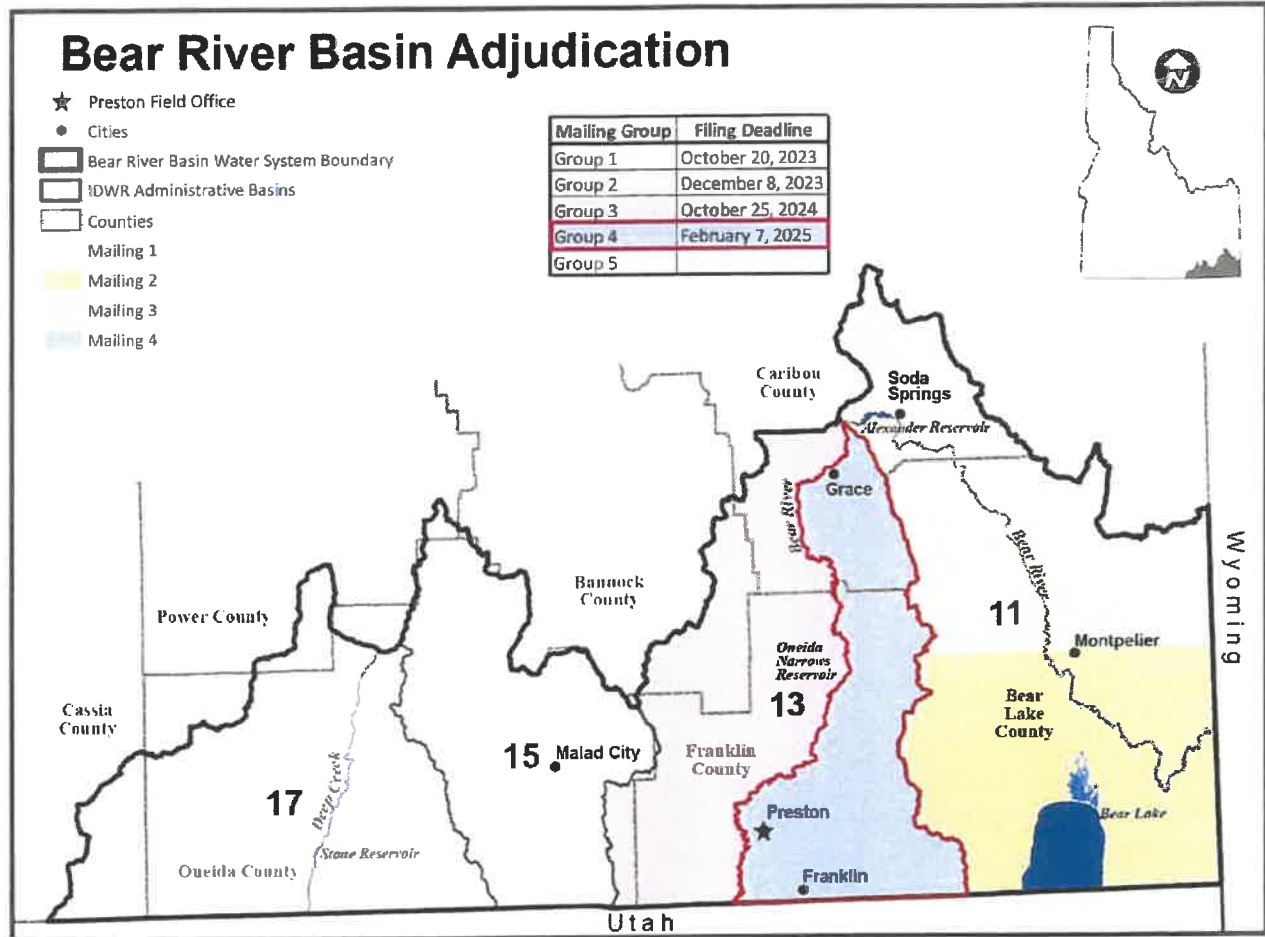

The files of the BRBA District Court will contain affidavits of service and other documents listing the persons served with a copy of this notice. Assistance in filing Notices of Claims may be obtained at all offices of IDWR, which are listed above.

If you want information regarding Notice of Claims filed with IDWR in this adjudication, you may inquire at any IDWR office or online at [www.idwr.idaho.gov](http://www.idwr.idaho.gov). If you want information on other documents filed with the Court in the Bear River Basin Adjudication, you may obtain a copy of the docket sheet from the BRBA District Court at [www.brba.idaho.gov](http://www.brba.idaho.gov); or at the Court's physical address, 253 3<sup>rd</sup> Avenue North, P.O. Box 2707, Twin Falls, Idaho 83303-2707. The docket sheet is prepared each month and contains a summary of all documents filed with the Court in the previous month as well as the dates and locations of hearings set for the following three months. You can get a copy of a docket sheet for the cost of mailing and/or copying, or you may sign up for a subscription to receive the docket sheet each month. The docket sheet will also be filed with the District Court Clerk for each county within the boundaries of the Bear River Basin water system in Idaho.

### IMPORTANT WATER RIGHTS INFORMATION

AUG 09 2024

IN THE DISTRICT COURT OF THE FIFTH JUDICIAL DISTRICT  
OF THE STATE OF IDAHO, IN AND FOR THE COUNTY OF TWIN FALLS

CAMILLE LARSEN, RECORDER  
By: C. Cadon Deputy  
Franklin County, Idaho

In Re: The General Adjudication of )  
Rights to the Use of Water from the )  
Bear River Basin Water System. )

Civil No. 00-79576

#### COMMENCEMENT NOTICE

Property Owners within Caribou  
and Franklin Counties within  
IDWR's Administrative  
Basin 13: Mailing Group 2

#### TO: ALL PERSONS OWNING RIGHTS TO THE USE OF WATER WITHIN THE BEAR RIVER BASIN WATER SYSTEM

A comprehensive determination of the nature, extent, and priority of the rights of surface and ground water users is required for effective water management in the State of Idaho. Adjudication of all water rights in the Bear River Basin will ensure proper delivery of water in times of shortage and ensure certainty of water right ownership to property owners.

The purpose of this notice is to inform you of the commencement of the Bear River Basin Adjudication and your legal responsibilities at this stage of the adjudication. You are receiving this notice because you may be the owner of property located within the boundaries of the Bear River Basin Adjudication.

#### I. YOU ARE HEREBY NOTIFIED THAT

On June 15, 2021, the Fifth Judicial District Court in and for the County of Twin Falls issued an order commencing a general adjudication of water rights within the Bear River Basin water system in Idaho. A general adjudication is a court case which will result in a decree determining all water rights within a water system. The purpose of the adjudication is to determine the elements and necessary provisions for the administration of water rights and to compile an inventory of all the water rights in the Bear River Basin water system.

#### II. GENERAL REQUIREMENT TO FILE A NOTICE OF CLAIM

Idaho Code § 42-1409 requires that a Notice of Claim be filed for all water rights within the boundaries of the Bear River Basin water system in the State of Idaho, except for certain water rights specifically excluded by law. "All water rights within the boundaries of the Bear River Basin water system in Idaho" includes rights to the use of water from any water source including streams, springs, lakes, ground water, developed water, waste water, or any other source. A map showing the boundaries of the water system is included at the end of this notice. The Notice of Claim must be filed with the Idaho Department of Water Resources (IDWR). **Failure to file a required notice of claim will result in a determination by the court that the water right no longer exists.**

**Your Filing Deadline is: February 7, 2025**

A Notice of Claim must be filed for all water rights based upon state law by the deadline above, except for de minimis domestic and/or stockwater rights or permits for which proof of beneficial use was filed after June 15, 2021. See section III. below. Water rights based on state law include water rights established by the diversion and application of water to a beneficial use, decreed rights, licensed rights, or water right permits if proof of beneficial use was filed on or before June 15, 2021.

For all water rights based upon federal law, a Notice of Claim or negotiated agreement must be filed by the deadline above, unless an alternative filing schedule is adopted by the Bear River Basin Adjudication District Court.

### III. EXCEPTIONS TO THE GENERAL REQUIREMENT TO FILE A NOTICE OF CLAIM

#### A. *DE MINIMIS* (SMALL) DOMESTIC AND STOCKWATER CLAIMS

Water users of a small domestic and/or stockwater (“D&S”) right, as defined by Idaho Code §§ 42-111 & 42-1401A, may elect to file a Notice of Claim now or defer (postpone) the filing until a later time in this proceeding. Although the Court has not yet set a deadline for filing claims for “deferrable” D&S water rights in the Bear River Basin, the opportunity to defer filing will not be indefinite. The Court will establish a filing deadline for small D&S water rights in the future. The current fee for filing a Notice of Claim with the Idaho Department of Water Resources for a small D&S water right is \$25.

The Idaho Department of Water Resources recommends filing a claim for a small D&S water right at this time and not deferring. **In times of water shortage, water is delivered to water right holders by a watermaster. Watermasters deliver water as authorized by a water right decreed by a court or approved by IDWR. The owner of a D&S right which has not been established through a license or decree, who elects to defer the filing of a Notice of Claim until a later time will be required to adjudicate the water right prior to distribution by a watermaster and/or before an application for change of the water right may be filed with IDWR.**

Water right holders who elect to defer filing at this time may be required to file, at a later date, a motion with the Court to have the water right adjudicated. These water rights holders may also be required to pay their own costs of serving notice of the motion, advertising, and all costs incurred for investigation and preparation of a report to be filed with the Court. In short, waiting will result in significantly more work and more expense for the water right holder.

A water right holder should be certain their water use qualifies for the deferral procedure for D&S rights before deciding not to file a Notice of Claim at this time. A D&S right holder will be bound by the terms of any decrees entered in this adjudication (including the limitation on D&S water rights that may be adjudicated at a later date) regardless of whether or not the water right holder files a notice of claim for the D&S right at this time. For more information, please consult Idaho Code §§ 42-111 and 42-1401A.

#### B. OTHER EXCEPTIONS

A Notice of Claim is not required to be filed for water right permits for which proof of beneficial use was filed after June 15, 2021. However, the Director of the Idaho Department of Water Resources may, at a later date, require holders of such permits to file a Notice of Claim. If the Director does issue such an order, the permit holder will be notified by mail. A Notice of Claim is not required for an application for permit that has been filed with IDWR but has not yet been approved.

Additionally, a water user need not file a Notice of Claim where the water user is not the owner of the water right. For example, a Notice of Claim is not required for any person who receives water solely by virtue of ownership of shares of stock in, or by being located within the boundary of a water delivery organization, if the water delivery organization holds legal title to the water right(s) and if the water delivery organization files a Notice of Claim. Examples of water delivery organizations that may hold legal title to water rights include, but are not limited to, cities, water utility districts or companies, and irrigation districts.

### IV. NOTICE OF CLAIM FORMS AND INSTRUCTIONS

A Notice of Claim must be filed on forms provided by IDWR or online at [www.idwr.idaho.gov](http://www.idwr.idaho.gov). When filing at an IDWR regional office, please bring a description of the property with Township, Range, Section and Quarter-Quarters, or the county parcel number. **Subdivision lot and block numbers are not sufficient.** IDWR staff members are available to meet in person or by phone with Claimants who want assistance filling out a Notice of Claim. **Claimants should call the nearest IDWR office to schedule an appointment if in-person help is needed in filling out a Notice of Claim.** Notice of Claim forms and instructions for completing and filing the forms are available online at [www.idwr.idaho.gov](http://www.idwr.idaho.gov) or at the following locations:

#### **V. FEES AND DEADLINES FOR FILING A NOTICE OF CLAIM**

Idaho Code § 42-1414 requires each person who files a Notice of Claim to pay a filing fee. Failure to pay the fee will result in the rejection of the Notice of Claim.

The persons receiving this Notice have property within Caribou and Franklin Counties and are within IDWR's Administrative Basin 13. The deadline for filing a Notice of Claim for water rights in your area is **February 7, 2025**. A Notice of Claim filed after this date may be accepted prior to the filing of the director's report with the Court, but failure to file a Notice of Claim by the established deadline may result in the assessment of a late fee of \$50.00 or 15% of the original filing fee, whichever is greater. Idaho Code § 42-1409A imposes substantial restrictions on the filing of amended or late Notices of Claim.

#### **VII. NOTICE TO IDWR OF CHANGE IN OWNERSHIP OR ADDRESS**

Idaho Code § 42-1409 requires all purchasers of a water right to inquire of IDWR whether a Notice of Claim has been filed. If a Notice of Claim has not been filed, the purchaser must file any required Notice of Claim. If a Notice of Claim has been filed, the purchaser must file with IDWR a written notice of the change in ownership along with sufficient evidence of ownership. "Purchaser" includes any person acquiring a water right from another water user, whether it is acquired by purchase, gift, inheritance, or any other means. Idaho Code § 42-1409 also requires all persons who have filed a Notice of Claim to file a written notice of any change in address with IDWR.

#### **VIII. FURTHER INFORMATION**

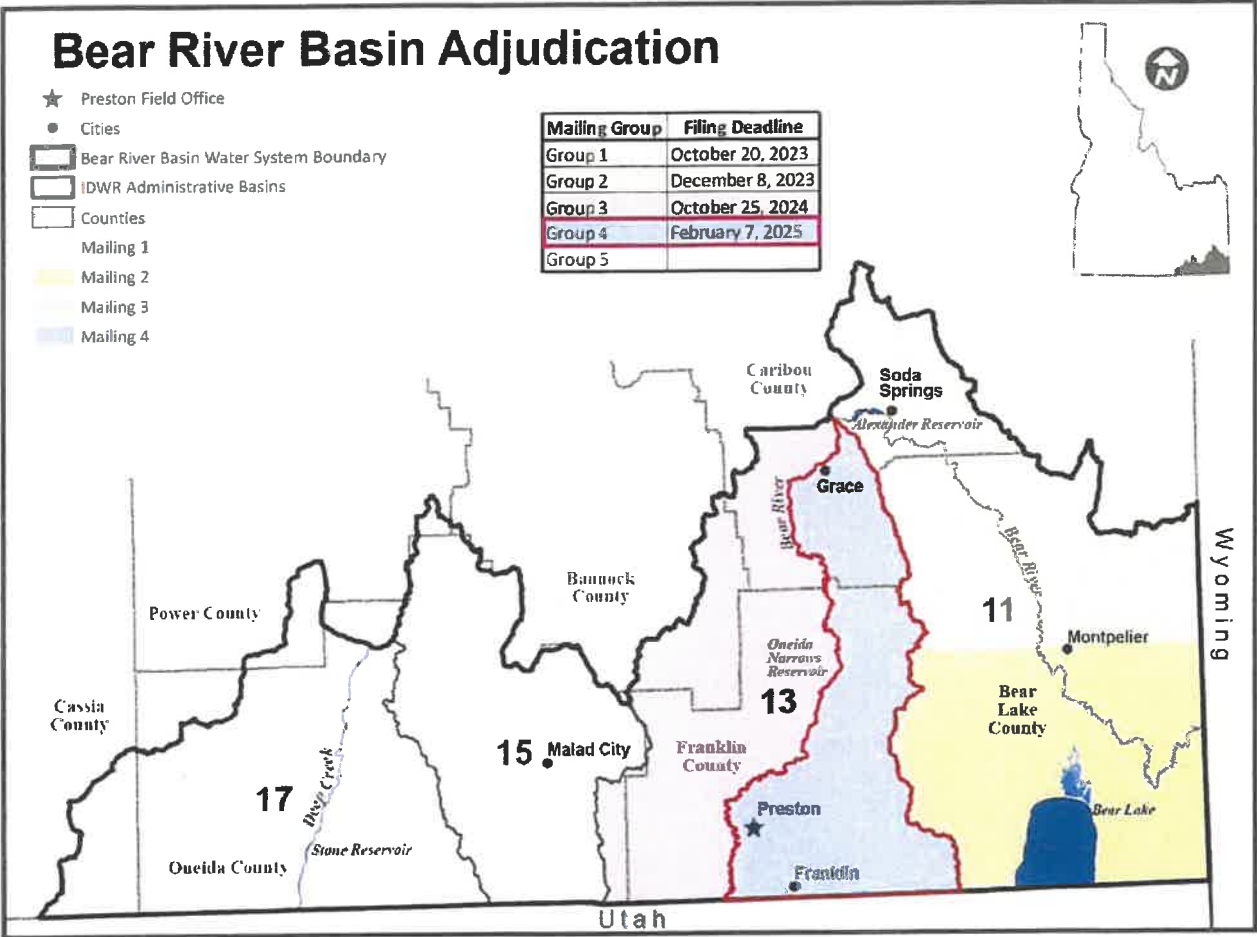

The files of the BRBA District Court will contain affidavits of service and other documents listing the persons served with a copy of this notice. Assistance in filing Notices of Claims may be obtained at all offices of IDWR, which are listed above.

If you want information regarding Notice of Claims filed with IDWR in this adjudication, you may inquire at any IDWR office or online at [www.idwr.idaho.gov](http://www.idwr.idaho.gov). If you want information on other documents filed with the Court in the Bear River Basin Adjudication, you may obtain a copy of the docket sheet from the BRBA District Court at [www.brba.idaho.gov](http://www.brba.idaho.gov); or at the Court's physical address, 253 3<sup>rd</sup> Avenue North, P.O. Box 2707, Twin Falls, Idaho 83303-2707. The docket sheet is prepared each month and contains a summary of all documents filed with the Court in the previous month as well as the dates and locations of hearings set for the following three months. You can get a copy of a docket sheet for the cost of mailing and/or copying, or you may sign up for a subscription to receive the docket sheet each month. The docket sheet will also be filed with the District Court Clerk for each county within the boundaries of the Bear River Basin water system in Idaho.
