To Whom It May Concern:

I, Donald McCaw, reside at 7210 Canadian Way, Harrison, Id and have been asked by the current owner of the Flying Arrow Ranch, Mike Ashley, which borders my property, to state any information I might have regarding wells, springs etc on the Ranch.

Shortly after moving here in 1976 I was asked by the then owner, Odeen Peterson, to dig up a frozen water line with my backhoe that connected his well to his house. I also know that he watered stock from two different springs across Hwy 97 for many years.

Sincerely, Donald McCaw

RE: Mike Ashley  
Flying Arrow Ranch  
Harrison, Id

I, Verland Woempner, am making this statement of what I know about the history of the Flying Arrow Ranch on HWY 97 at the top of Beauty Bay Hill. The names and dates are as accurate as memory allows. I have lived near the Flying Arrow my entire life. I was well acquainted with the Peterson Family who previously owned this property. My family and the Peterson's often worked together over many years.

Odean Peterson came to the area in the late 1940's. He purchased his first piece of property on the south side of Hwy 97 from the Johnson's. After a period of time he purchased the piece of property on the north side of the highway from a family named Borchard. (sp?) And later he bought the piece of property, that joins the east side of my family property, from the Hoagland's bringing the total land owned by the Peterson's to about 600 acres. Twenty six acres of this last piece were sold to a radio station for part of the Emergency Broad Cast System and now houses four large radio towers.

Odean worked in the Silver Valley to help pay for the property now known as the "Flying Arrow Ranch". While he worked to pay for the property his family began clearing the land, raising a small amount of grain to sell & help feed their hogs. All of the properties he had purchased had belonged to families who used the land to provide for their families, either by raising grain and livestock or by logging & milling lumber.

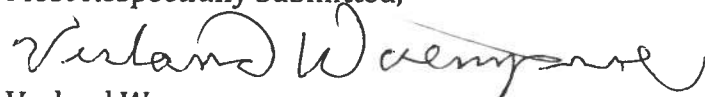

My father, Arny Woempner, helped log & mill the lumber on the Flying Arrow for Odean's use. Howard Tangen (sp) and Bud Howard pushed the stumps out. After the ground was cleared on most of the property the Peterson's began raising hay and Black Angus cattle. In addition the Peterson's used part of the property for grazing cattle, Forest Service ground was also grazed. Peteron's ran about 100 head of cattle on the ranch. At that time they built several stock ponds on the property south of HWY 97.

In 1976 the Peterson's sold their cattle and began leasing the ground to others for cattle grazing. Petersons built more stock ponds, at this time, in the area north of the highway to water cattle. There were approximately 100 head of cattle grazing these fields and ceased to be farmed for hay and grain.

This lease grazing went on until the "Chateau" people bought the property. Over the years, from the time Petersons sold their cattle, trees and brush started returning to the formerly farmed ground. This property has long been a farm & ranch, not a natural forest area.

As a youth, I hauled hay on the Flying Arrow and tilled Hannah Petersons' garden for her each year. The Petersons were never opposed to the changing uses of the property.

Most Respectfully Submitted,

Verland Woempner
